

PENCILS & ERASERS

XS12 MECHANICAL PENCIL

The Sakura XS Series of mechanical pencils features a fixed sleeve that protects the pencil lead when used with rulers or templates. The pencil comes in 0.5mm, 0.7mm and 0.9mm widths for thin to bold lines and maximum versatility when writing or drawing. The refillable eraser is easily accessible under a metal cap, and each XS Series Mechanical Pencil blistercard includes three bonus erasers. Eraser refills can be purchased in packs of five with two replacement eraser sleeves.

SUMOGRIP® PENCILS

Fingers feel relaxed and flexible while holding the specially designed, triangular shaped grip of the SumoGrip pencil. The ergonomically correct contour is a natural fit for hands. Physical therapists recommend SumoGrip to carpal tunnel patients and for adults with fine motor skill difficulty.

ARTWORK BY STAN SAKAI

SUMOGRIP® ERASERS

Sakura's SumoGrip Eraser series features microporous foam technology to remove graphite marks from paper surfaces for artists, students and architects. SumoGrip

Erasers are composed net like cells that picks up graphite marks and erases better across the surface. Reticulated open-cell foam works like ultra-fine sandpaper to get into the small grooves and pits of the paper surface.

SUMOGRIP® EE-3000 ELECTRIC ERASER

SumoGrip EE-3000 Electric Eraser is designed with a round and ergonomic body for longer periods of use while still maintaining precise pinpoint erasing accuracy. The pocket-sized eraser provides a firm grip and is best known for its high eraser capability and durability. Avoid contending with bulky AC electric erasers - the AAA battery-powered motor ditches the cord and weighs only 2.9 ounces. With over 10,000 RPM, the strong torque makes it easy to remove graphite marks and create fine details to your artwork. Keep the handy eraser by your side for personal studio use or freelance commission work. Designed for comfort and control, the SumoGrip Electric EE-3000 is compact for storage and geared for mobility.

ABOUT SAKURA

To be human is to be uniquely creative. We have a drive to create—new ideas, stories, products, art, and more. While technology will change the way we live, only we as humans have the particular ability to imagine and unlock possibility. At Sakura of America, we foster this incomparable human capability to think, dream, experiment, and connect.

We know everyone is capable of creativity. This trait is within everyone, not just select people. Whether you are using our products for artwork, expression, problem solving, storytelling, or organization, creativity is at the core—allowing us to connect with ourselves and with others. We believe if you foster your creative abilities, you can reach your full potential.

We encourage people to take a moment to explore how creativity unlocks new perspectives, self discovery, and human connection.

Sakura—A world of possibility powered by human creativity.
